

Top 10 List for Preparedness on a Budget

- 1 Plan** for the types of disasters that can happen in the area where you live. Maine's hazards include severe winter and summer weather, flooding, wildfires, and long term power outages.
- 2 Create** your own personalized disaster supply list. You may not need everything included in “ready made” kits and there may be additional items you need based on your personal situation. For example, if you have infants, you may need diapers, bottles and formula. Don't forget to have supplies in your car and at work.
- 3 Budget** emergency preparedness items as a “normal” expense. Even \$20.00 a month can go a long way to helping you be ready. Buy one preparedness item each time you go to the grocery store.
- 4 Save** by shopping sales. Make use of coupons and shop at stores with used goods. Don't replace your disaster kit items annually, just replace and cycle through those items that have a shelf life (e.g., batteries, food). You may want to test the radio and flashlight every September to make sure they are in good working order.
- 5 Store** water in safe containers. You don't have to buy more expensive bottled water, but make sure any containers you use for water storage are safe and disinfected. Don't use glass containers.
- 6 Request** preparedness items as gifts. We all receive gifts we don't need or use. Wouldn't it be better if your friends and family members gave you gifts that could save your life? Don't forget to protect them by sending preparedness gifts their way, too.
- 7 Think ahead.** You are more likely to save money if you can take your time with focused and strategic shopping. It's when everyone is at the store right before a storm hits that prices are going to be higher. Use a list to avoid duplicating items when you are stressed or panicked.
- 8 Review** your insurance policy annually and make necessary changes. When a disaster strikes, you want to know that your coverage will help you get back on your feet. Renters need policies too, in order to cover personal property.
- 9 Update** contact records. Have an accurate phone list of emergency contact numbers. If you are prepared, you may be able to help friends and neighbors who need assistance. By sharing preparedness supplies, you can help each other.
- 10 Trade** one night out to fund your disaster supply kit. Taking a family of four to the movies can cost upwards of \$80-\$100. Just one night of sacrifice could fund a disaster supply kit.

Congratulate Yourself!

The majority of Americans are not prepared. Pre-planning will help you and your family better survive a disaster.
